

2022 ANNUAL REPORT

**GREATER
CHICAGO**
- FOOD -
DEPOSITORY.

Dear Friends and Supporters,

We are writing to you at the end of fiscal year 2021-2022 – another year of sobering high need across our community. Just as our neighbors prepared to bounce back from all that was lost during the pandemic, inflation and soaring food prices dealt another obstacle. Against that backdrop of need, you stood with us, ensuring our neighbors had food to eat.

In fiscal year 2021-2022, the Greater Chicago Food Depository distributed 30% more food than we did in an average pre-pandemic year, a stark reminder that while the COVID crisis may be subsiding, the need for food at food pantries, soup kitchens and shelters across Cook County remains elevated. Even as we write this letter, we continue to see long lines at partner sites, a reflection of the impact rising food and fuel prices are having on our neighbors.

Despite the challenges of continued high need, inflation and constrained supply chains, the Food Depository continued to mount a bold response in support of our neighbors facing hunger. Beyond the millions of pounds of high quality, nutritious fresh food we distributed every month, we strengthened our advocacy efforts, launching our first cohort of Food Equity Ambassadors. This group of individuals from partners across our network are shaping how we will lift our voice in the years to come. We also brought forward a new mission statement to guide our work in the years to come:

Our mission is to end hunger. We believe food is a basic human right. To achieve our mission, we work in partnership with a network of community-based organizations and individuals. Together, we connect our neighbors with healthy food, lift our voices and advance solutions that address the root causes of hunger - poverty, systemic inequity, and structural racism. Together, we are great. Together we can end hunger.

Our ability to respond to the daily need of our neighbors – and to build strategies for the work still to come – is made possible by your generous support. With your help, we are able to keep getting food out to our partners. With your help, we are actively working toward a day where no one goes hungry. With your help, we are building a greater Chicago.

Thank you for standing with us and with our neighbors who face hunger.

Kate Maehr
CEO & Executive Director
Greater Chicago Food Depository

Monica Brown Moss
Chair of the Board

Greater Chicago Food Depository

Report on the Audits of the Financial Statements

Opinion

We have audited the financial statements of Greater Chicago Food Depository (the "Food Depository"), which comprise the statement of financial position as of June 30, 2022 and 2021 and the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Food Depository as of June 30, 2022 and 2021 and the changes in its net assets, functional expenses, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Food Depository and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matters

As described in Note 3 to the financial statements, the Food Depository adopted the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*, and ASU No. 2016-02, *Leases*. Our opinion is not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Food Depository's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Board of Directors
Greater Chicago Food Depository

In performing audits in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Food Depository's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Food Depository's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2022 on our consideration of the Food Depository's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Food Depository's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Food Depository's internal control over financial reporting and compliance.

Plante & Moran, PLLC

NOTES TO FINANCIAL STATEMENTS – June 30, 2022 and 2021

NOTE 1 – NATURE OF BUSINESS

Greater Chicago Food Depository (the “Food Depository”) is a not-for-profit, tax exempt (Section 501(c)(3)) food bank working to end hunger in Cook County. The Food Depository believes a healthy community starts with food. The Food Depository is at the center of a network of more than 700 organizations and programs – food pantries, soup kitchens, mobile distributions, and other partners – working to bring food and hope to our neighbors at risk of hunger. The Food Depository addresses the root causes of hunger with job training, advocacy, benefits outreach, and other solutions. The Food Depository is a proud charter member of Feeding America – the national network of food banks. By working to help those most in need go from hungry to hopeful, the Food Depository is building a greater Chicago.

A description of each group of net assets and programs is as follows:

FOOD BANK

Operating - Represents resources used to carry out the food bank operations over which the board of directors has discretionary control. It also includes the net investment in property and equipment and the unexpended board-designated resources.

Contributed Food - Represents the balance of contributed food remaining on hand at June 30.

Board-designated Endowments - Represents resources designated by the board of directors as a reserve account to support both the short-term and long-term financial needs of the Food Depository, including targeted capital projects, operational needs, programmatic growth, and other approved commitments.

GOVERNMENT PROGRAMS

The Food Depository administers several government programs, as described below:

The City of Chicago Emergency Food Program – Under the Emergency Food Program with the City of Chicago’s Department of Family and Support Services, the Greater Chicago Food Depository is responsible for supplying food boxes for needy families in Chicago and fresh produce to homeless shelters throughout Chicago. For the food boxes, the costs for food, materials, packaging, distribution, and administration are reimbursed by the Department of Family and Support Services at a flat rate per box upon shipment from the Food Depository. The Department of Family and Support Services reimburses the fresh produce at cost. Food and supplies on hand are classified as inventory on the statement of financial position. The program provides grants to agencies mutually selected by the city and the Food Depository to access food through the Food Depository’s existing network. The city refers clients to these agencies to access food. A reduced number of food boxes is provided to the city.

The Emergency Food and Shelter National Board Program of the Federal Emergency Management Agency (FEMA) – The Food Depository purchases and distributes food high in protein and staples, without service fees, to eligible agencies. These foods complement contributed products.

The Illinois Department of Human Services Distribution of United States Department of Agriculture (USDA) Food Commodities Program – The Food Depository receives USDA commodities and distributes them to certain qualified agencies without service fees.

The Illinois Department of Human Services Distribution of United States Department of Health and Human Services Temporary Assistance to Needy Families Program – The Food Depository receives funding to purchase commodities and distributes them to certain qualified agencies without service fees.

Illinois State Board of Education Child and Adult Care Food Program and Summer Food Service Program – The Food Depository provides kid cafes with meals served to children through summer food programs and after-school programs.

SNAP/Food Stamp Outreach Program – The Food Depository is a member of the Illinois State SNAP Outreach Plan, which is administered by the Illinois Department of Human Services and the U.S. Department of Agriculture.

AmeriCorps State/National Program – The Food Depository hosts AmeriCorps members through Serve Illinois and the Corporation for National and Community Service. The individuals are placed in the Greater Chicago Food Depository or member agencies and are utilized to assist with veteran pantry operations and outreach, SNAP outreach and children’s programming.

CEDA Family Nutrition Program – The objective of the Family Nutrition Program is to increase the self sufficiency of low-income persons in suburban Cook County by providing them with access to fresh, nutritious produce.

The Cook County Coronavirus Relief Funds Program – The Food Depository receives assistance to support food distribution sites and partnerships in the south and west suburban regions of Cook County through food procurement, by increasing cold storage capacity, and partnership development and capacity building to increase food access.

The Illinois Department of Human Services Distribution of the Federal Emergency Management Agency FEMA Feeding Mission Program – The Food Depository purchases and distributes food and staples to qualified agencies without service fees to reduce food insecurities that arose from the COVID-19 pandemic. These foods complement contributed products.

The Cook County American Rescue Plan Act (ARPA) Coronavirus State and Local Fiscal Recovery Funds (SLFRF) – The Food Depository receives assistance to support food distribution sites and partnerships in the south and west suburban regions of Cook County through food procurement, by increasing cold storage capacity, and partnership development and capacity building to increase food access.

The Illinois Department of Human Services Distribution of the United States Department of Agriculture (USDA) SNAP to Success Program – The Food Depository receives assistance to provide individuals receiving SNAP nutrition benefits with employment and training services that help to provide a pathway to sustainable employment and lead to improved economic sustainability for individuals and families.

The Chicago Cook Workforce Partnership Distribution of the State of Illinois Department of Commerce and Economic Opportunity (DCEO) funding from the United States Department of Labor (DOL) Workforce Investment Act – The Food Depository provides workforce investment activities that increase the employment, retention, and earnings of Dislocated Workers, and increase occupational skill attainment by the participants.

Government fees and grants are subject to audits by the respective government agencies.

NOURISH CAPITAL CAMPAIGN

In 2018, the Food Depository launched the Nourish Capital Campaign. The campaign seeks to raise approximately \$75 million to support capital improvements to the existing food depository facility and expansion of the facility to expand programmatic capabilities.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, expenses, and other changes in net assets during the reporting period. Actual results could differ from those estimates.

BASIS OF PRESENTATION

The Food Depository’s financial statements, which are presented on the accrual basis of accounting, have been prepared to focus on the organization as a whole and to present balances and transactions in accordance with the existence or absence of donor-imposed restrictions. The Food Depository maintains its financial accounts in accordance with the principles and practices of fund accounting. Fund accounting is the procedure

NOTES TO FINANCIAL STATEMENTS – June 30, 2022 and 2021

by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives of the Food Depository.

The Food Depository classifies its net assets and related activity as follows:

Net assets without donor restrictions – Net assets that are not subject to donor-imposed restrictions.

Net assets with donor restrictions – Net assets that are subject to donor-imposed restrictions that will be met either by actions of the Food Depository and/or the passage of time, or net assets that are subject to donor-imposed restrictions that they be maintained in perpetuity.

REVENUE AND PUBLIC SUPPORT

Contributions, contributed food, and fees and grants from government agencies are subject to Subtopic No. 958-605, *Not for Profit Entities Revenue Recognition*.

Public support and revenue are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or law. Expirations of net assets with donor restrictions (i.e., the donor stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between applicable classes of net assets.

Contributions of cash and other assets, including unconditional promises to give in the future, are reported as revenue when received, measured at fair value. Donor promises to give in the future are recorded at the present value of estimated future cash flow. Conditional promises are recorded when donor stipulations are substantially met. Contributions are recorded net of allowances. An allowance for doubtful pledges receivable is provided based on management's judgment, including factors such as prior collection history, the type of contribution, and the nature of fundraising activity.

Contributions received with donor imposed restrictions are reported as revenue of the net assets with donor restrictions asset class. Net assets with donor restrictions released from restriction primarily relate to expenditures incurred for capital additions and program services. Contributions of land, building, and equipment without donor imposed restrictions concerning the use of such long lived assets are reported as revenue of the net assets without donor restrictions asset class.

Revenue from contributed food received, as well as the related contributed food distributed expense and the contributed food inventory accounts, is estimated using the Food Depository's respective pounds of food at a weighted average wholesale price per pound by product category, as determined by Feeding America. The Food Depository treats contributed food as contributions without donor restrictions and records the revenue upon receipt based on the pounds of food contributed during the year.

Revenue from government grants and contract agreements is conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Food Depository has incurred expenditures in compliance with specific contract or grant provisions. Any government grants received prior to incurring qualifying expenditures are reported as refundable advances and recorded as deferred revenue on the statement of financial position. Management determines the allowances for doubtful accounts on grant receivables by reviewing and identifying troubled accounts on a monthly basis and by using historical experience. Grant receivables are written off when deemed uncollectible. The Food Depository recorded an allowance for one specific grant receivable in the amount of \$8,757,499 as of June 30, 2022. The Food Depository did not record an allowance on its grant receivables as of June 30, 2021. The Food Depository expects to receive outstanding amounts due subsequent to fiscal year end.

CONTRIBUTED NONFINANCIAL ASSETS

Certain donated services are recognized as contributed nonfinancial assets in the statement of activities and changes in net assets. The value of these services is determined based on estimated fair value.

Donated legal services have been recorded in the statement of activities and changes in net assets in the amount of \$229,556 and \$337,732 for the years ended June 30, 2022 and 2021, respectively. The estimated fair value is based on current rates for similar legal services.

Donated advertising and printing has been recorded in the statement of activities and changes in net assets in the amount of \$333,314 and \$389,268 for the years ended June 30, 2022 and 2021, respectively. The estimated fair value is based on current rates for similar advertising and printing services.

The corresponding expense for these contributed nonfinancial assets is recorded in professional and contractual fees on the statement of functional expenses.

See also the Revenue and Public Support section above for further information regarding contributed food received that is presented separately on the statement of activities and changes in net assets.

CASH EQUIVALENTS

Cash and cash equivalents are composed primarily of available cash balances and highly liquid investments with maturities of three months or less when purchased. The Food Depository maintains a significant portion of its cash and cash equivalents at various financial institutions. As of June 30, 2022 and 2021, the recorded cost plus accrued interest approximated fair value. The Food Depository maintains its cash and cash equivalents in bank deposit accounts that at times may exceed federally insured limits. The Food Depository has not experienced any losses in such accounts. The Food Depository believes it is not exposed to any significant credit risk on cash and cash equivalents.

INVENTORY

Contributed food is valued on a modified first-in, first-out basis using a weighted-average wholesale price per pound. Food is distributed based on the earlier of the purchase date or expiration date. Feeding America provides a product valuation survey that details price per pound by product categories. The Food Depository uses this survey to calculate the weighted average price per pound for its inventory by category.

Purchased food programs inventory includes the Food Depository's purchased food products valued at cost (first-in, first-out).

INVESTMENTS

Investments are reported at fair value. Investment income, including net realized and unrealized gains (losses), is reflected net of investment expenses in the statement of activities and changes in net assets as an increase (decrease) in net assets. Interest and dividend income is recorded on the accrual basis.

The Food Depository's investments are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near future and will materially affect the amounts reported in the financial statements.

LAND, BUILDING AND EQUIPMENT

Property and equipment are recorded at cost when purchased or at fair value at the date of donation and are depreciated on a straight line basis over their estimated useful lives. The Food Depository follows an approved capitalization policy that details the specifics of allowable fixed asset capital expenditures by category. The policy applies consistent methodology based on scope per asset classification of \$5,000 for equipment assets, \$50,000 for building improvement assets, and \$100,000 for software implementation assets, all subject to varying criteria. Costs of maintenance and repairs are charged to expense when incurred.

GRANTS EXPENSE AND PAYABLE

Grants are recorded as liabilities and expenses at the time the grant agreement is formalized. Grants payable consist of unconditional grants that have been approved as of June 30, 2022 and 2021 and are included in accrued expenses on the statement of financial position. The grants payable balance is expected to be paid in less than one year. Grants expense in the amount of \$2,701,842 and \$7,374,098 for the years ended June 30, 2022

NOTES TO FINANCIAL STATEMENTS – June 30, 2022 and 2021

and 2021, respectively, is recorded in member agencies development on the statement of functional expenses.

FUNCTIONAL ALLOCATION OF EXPENSES

The costs of providing the program and support services have been reported on a functional basis in the statement of activities and changes in net assets. Indirect costs have been allocated between the various program and support services based on estimates determined by management. Although the methods of allocation used are considered appropriate, other methods could be used that would produce different amounts.

The financial statements report certain categories of expenses that are attributable to one or more program or supporting function of the Food Depository. Those expenses and the allocation methods used for each are described as follows:

- Occupancy and utility costs – square footage by building function
- Building, maintenance, and renovation expense – square footage by building function
- Depreciation – square footage by building function

FEDERAL INCOME TAXES

The Food Depository is a not-for-profit corporation and is exempt from tax under the provisions of Internal Revenue Code Section 501(c)(3). Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Food Depository and recognize a tax liability if the Food Depository has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. Management has analyzed the tax positions taken by the Food Depository and has concluded that, as of June 30, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Food Depository is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

COVID-19

No impairments were recorded as of the statement of financial position date; however, due to significant uncertainty surrounding the situation, management's judgment regarding this could change in the future. In addition, while the Food Depository's activities, functional expenses, cash flows, and financial condition could be negatively impacted, the extent of the impact cannot be reasonably estimated at this time. However, the Food Depository continues to respond to a need and demand for food assistance that remains well above pre-pandemic levels. Inflation and rising food prices are contributing to an ongoing food insecurity crisis, affecting individuals and households that were already impacted by poverty and the COVID-19 pandemic. Historic inflation has also impacted food bank operations, requiring the Food Depository to spend more to purchase food, fuel, and other goods in 2022.

RECLASSIFICATION

Certain 2021 amounts on the statement of functional expenses have been reclassified to conform to the 2022 presentation.

SUBSEQUENT EVENTS

The financial statements and related disclosures include evaluation of events up through and including September 27, 2022, which is the date the financial statements were available to be issued.

NOTE 3 – ADOPTION OF NEW ACCOUNTING PRONOUNCEMENTS

As of July 1, 2021, the Food Depository adopted Accounting Standards Update (ASU) No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The ASU provides for additional disclosures to support clearer financial information about important noncash contributions that charities and other not for profit organizations receive, known as gifts in kind (GIKs). Contributed

nonfinancial assets are reported by category within the financial statements, and there are additional disclosures included for each category, including whether the nonfinancial assets were monetized or used during the reporting period, the policy for monetizing nonfinancial contributions, and a description of the fair value techniques used to arrive at a fair value measurement. The Food Depository adopted the ASU retrospectively. As a result of the adoption of the ASU, the Food Depository presented contributed nonfinancial assets separately on the statement of activities and changes in net assets and included all relevant disclosures in Note 2. There was no impact on the amount or timing of when revenue was recognized, and there was no restatement of prior year amounts.

As of July 1, 2021, the Food Depository adopted Financial Accounting Standards Board (FASB) Accounting Standards Update No. 2016-02, *Leases*. The ASU requires lessees to recognize a right of use asset and a related lease liability for all leases, with a limited exception for short-term leases. Leases are classified as either finance or operating, with the classification affecting the pattern of expense recognition in the statement of activities and changes in net assets. The Food Depository elected to adopt the ASU using the modified retrospective method as of July 1, 2021. The Food Depository has elected to apply the following practical expedients:

- The Food Depository did not reassess if expired or existing contracts are or contain a lease.
- The Food Depository did not reassess the lease classification for expired or existing leases.
- The Food Depository did not reassess initial direct costs for any existing leases.
- The Food Depository has used hindsight to determine the lease term and for assessing impairment of the right-of-use assets for existing leases.
- The Food Depository has not reassessed whether any existing or expired land easements that were not previously classified as leases are or contain a lease.

As a result of the adoption of the ASU, the Food Depository recorded a right-of-use asset of \$2,344,562 and a lease liability of \$2,292,881 as of July 1, 2021 for existing operating leases. There was no impact on net assets as a result of adopting the new ASU.

NOTE 4 – LIQUIDITY AND AVAILABILITY OF RESOURCES

The Food Depository's financial assets available within one year of June 30 for general expenditure are as follows:

	2022	2021
Cash and cash equivalents	\$ 6,484,884	\$ 9,202,263
Grants and accounts receivable - Net	9,741,270	5,222,686
Pledges receivable - Net	1,984,370	2,503,569
Investments	40,155,173	57,467,230
Endowment assets appropriated for current use	3,100,000	-
TOTAL	\$ 61,465,697	\$ 74,395,748

The pledges receivable are subject to implied time restrictions, but the amount reported above is expected to be collected within one year. The pledges receivable above do not have purpose restrictions.

The Food Depository's endowment funds consist of donor restricted endowments and a board designated quasi endowment. Income from donor restricted endowments is restricted for specific purposes and, therefore, is not available for general expenditure. As described in Note 11, the board-designated quasi endowment has a spending rate of 5 percent. As of June 30, 2022 and 2021, the Food Depository budgeted appropriations of approximately \$3,100,000 and \$0 from the board-designated quasi endowment to be available within the next 12 months.

As part of the Food Depository's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures,

NOTES TO FINANCIAL STATEMENTS – June 30, 2022 and 2021

liabilities, and other obligations come due. To help manage unanticipated liquidity needs, the Food Depository has a committed line of credit in the amount of \$20,000,000, all of which was available to draw upon as of June 30, 2022. Additionally, the Food Depository has a board-designated quasi endowment of approximately \$68,300,000 and can make additional appropriations from this endowment for capital expenditures that are not considered part of general expenditures.

NOTE 5 – FAIR VALUE MEASUREMENTS

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Food Depository has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Food Depository's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Food Depository's assets measured at fair value on a recurring basis at June 30, 2022 and 2021 and the valuation techniques used by the Food Depository to determine those fair values:

ASSETS MEASURED AT FAIR VALUE ON A RECURRING BASIS AT JUNE 30, 2022

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at June 30, 2022
ASSETS – INVESTMENTS				
Equity funds	\$ 55,853,143	\$ —	—	\$ 55,853,143
Real estate funds	3,912,329	—	—	3,912,329
Fixed-income funds	41,831,090	—	—	41,831,090
Alternative assets funds	7,372,174	—	—	7,372,174
Commodity funds	1,084,995	—	—	1,084,995
TOTAL ASSETS	110,053,731	—	—	110,053,731

ASSETS MEASURED AT FAIR VALUE ON A RECURRING BASIS AT JUNE 30, 2021

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at June 30, 2021
ASSETS – INVESTMENTS				
Equity funds	\$ 62,754,394	\$ —	\$ —	\$ 62,754,394
Real estate funds	2,661,468	—	—	2,661,468
Fixed-income funds	52,143,226	—	—	52,143,226
Alternative assets funds	4,942,380	—	—	4,942,380
Commodity funds	793,792	—	—	793,792
Corporate bonds	—	923,033	—	923,033
TOTAL ASSETS	123,295,260	923,033	—	124,218,293

Not included in the tables above are cash and accrued interest held in investments of \$5,372,443 and \$6,893,273 as of June 30, 2022 and 2021, respectively.

LEVEL 1 INPUTS

Fair values for the equity funds, real estate funds, fixed income funds, alternative asset funds, and commodity funds were based on quoted market prices.

LEVEL 2 INPUTS

Fair values for corporate bonds were based on quote prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, and credit spreads.

NOTE 6 – PLEDGES RECEIVABLE

The Food Depository discounted contributions due in more than one year using a rate of 2.98 and 1.45 percent as of June 30, 2022 and 2021, respectively.

Pledges receivable consist of the following as of June 30:

	2022	2021
Pledges receivable	\$ 5,161,076	\$ 7,748,566
Less discounts to net present value	(138,392)	(137,545)
Less allowance for uncollectible pledges	—	(4,937)
NET PLEDGES RECEIVABLE	\$ 5,022,684	\$ 7,606,084

Scheduled annual payments on pledges are as follows:

2023	\$ 3,382,181
2024	1,753,395
2025	25,500
TOTAL	\$ 5,161,076

NOTE 7 – LAND, BUILDING, AND EQUIPMENT

The cost of land, building, and equipment as of June 30, 2022 and 2021 is summarized as follows:

	2022	2021	Depreciable Life – Years
Land	\$ 11,462,739	\$ 11,462,739	—
Building and building improvements	23,367,224	23,367,224	5-40
Equipment	16,370,578	15,797,412	3-15
Construction in progress	2,205,432	2,150,881	—
TOTAL COST	53,405,973	52,778,256	
Accumulated depreciation	17,121,262	14,659,563	
NET LAND, BUILDING, AND EQUIPMENT	\$ 36,284,711	\$ 38,118,693	

Depreciation expense for 2022 and 2021 was \$2,544,716 and \$2,388,155, respectively. As of June 30, 2022 and 2021, there were no remaining commitments on construction in progress, as construction was paused due to COVID-19.

NOTE 8 – LINE OF CREDIT

The Food Depository entered into a line of credit agreement with Bank of America, N.A. on April 11, 2018 with maximum available borrowings of \$20,000,000. As of June 30, 2022 and 2021, there were no outstanding borrowings on this line of credit. Prior to July 30, 2021, interest was payable monthly at LIBOR plus 1.15 percent. Effective July 30, 2021, the interest rate is a rate per year equal to the sum of (i) the greater of the BSBY Daily Floating Rate or the Index Floor (0 percent), plus (ii) 1 percent. The line of credit is unsecured. Under the agreement with Bank of America, N.A., the Food Depository is subject to a certain covenant, including meeting a minimum liquidity ratio. On June 30, 2022, the Food Depository amended the line of credit to extend the maturity date through July 31, 2023.

Under the line of credit agreement, Bank of America, N.A., on behalf of the Food Depository, can issue up to \$1,000,000 of letters of credit, with the amounts issued and outstanding to be a reduction to the availability of the line of credit. The Food Depository had no letters of credit outstanding as of June 30, 2022 and 2021.

NOTES TO FINANCIAL STATEMENTS – June 30, 2022 and 2021

NOTE 9 – OPERATING LEASES

The Food Depository has two classes of contractual arrangements identified as leases; vehicle and equipment leases. The vehicle leases class consists of 29 vehicle leases that generally have a term of seven years. The current fleet has starting dates ranging from fiscal year 2016 through fiscal year 2021 with end dates ranging from fiscal year 2023 through fiscal year 2028. The equipment leases class consists of one lease for Xerox copier and printer equipment. The lease is for five years and will terminate in fiscal year 2025. The right of use asset and related lease liability have been calculated using a discount rate of 1.0 percent. The leases require the Food Depository to pay maintenance, licensing, fuel, and insurance costs. Total rent expense under these leases was \$802,557 and \$792,965 for 2022 and 2021, respectively.

The Food Depository has made a policy election to not separate lease and nonlease components for vehicle leases. Therefore, the full amount of the lease payment is included in the recorded right of use asset and lease liability.

Future minimum annual commitments under these operating leases are as follows:

2023	\$ 852,434
2024	829,066
2025	611,381
TOTAL	\$ 2,292,881

NOTE 10 – NET ASSETS WITH DONOR RESTRICTIONS

Net assets with donor restrictions as of June 30 are restricted for the following purposes:

	2022	2021
PURPOSE RESTRICTIONS		
Nourish Capital Campaign	\$ 6,907,956	\$ 3,114,155
Agency initiatives	2,447,188	2,007,961
Public Policy	1,993,906	1,012,924
Food purchasing	1,327,782	122,340
Other	366,720	359,824
Starbucks FoodShare program	286,095	577,864
Public Benefits Outreach	106,153	223,196
Chicago's Community Kitchens	43,000	—
Mobile pantry program	20,004	10,000
Share Our Strength	13,400	361,059
Older adults' program	—	50,000
Children's program	—	46,560
TOTAL PURPOSE RESTRICTIONS	13,512,204	7,885,883
Time restrictions – Pledges receivable	1,351,462	648,580
TIME AND PURPOSE RESTRICTIONS		
Nourish Capital Campaign	2,825,091	4,804,583
Public Benefits Outreach	491,130	645,421
Other	205,000	1,377,500
Children's program	125,000	—
Chicago's Community Kitchens	25,000	—
Older adults' program	—	130,000
TOTAL TIME AND PURPOSE RESTRICTIONS	3,671,221	6,957,504
Not subject to appropriation or expenditure – Freedom from Hunger Fund Endowment (Note 11)	38,374	38,374
TOTAL	\$ 18,573,261	\$ 15,530,341

Net assets with donor restrictions with purpose restrictions represent cash received that is restricted by the donor for specific purposes. Net assets with donor restrictions with time restrictions represent pledge receivables as of June 30, 2022. Net assets with donor restrictions with time and purpose restrictions represent pledge receivables as of June 30, 2022 that are also restricted by the donor for specific purposes. See Note 11 for a description of net assets with donor restrictions not subject to appropriation or expenditure.

NOTE 11 – DONOR-RESTRICTED AND BOARD-DESIGNATED ENDOWMENTS

The Food Depository's endowment includes one donor restricted endowment fund and two funds designated by the board of directors to function as endowments. The Food Depository's Founders' Fund represents one of the board designated endowments. The Freedom from Hunger Fund consists of both board designated and donor restricted endowments. Net assets associated with endowment funds, including funds designated by the board of directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The objectives of the Founders' Fund and the board designated Freedom from Hunger Fund endowments are (1) to provide a pool of capital sufficient to fund the operating reserve; (2) to provide a source of funds for targeted capital projects, programmatic growth, and other uses as deemed appropriate by the Food Depository's board of directors (the "Board"), consistent with the Food Depository's strategic plan; and (3) to provide an identified portion of the Fund to the annual operating budget of the Food Depository to pay operating expenses. The first two objectives are for long term investment goals, while the third objective meets short term investment and liquidity needs.

The objectives of the permanently restricted Freedom from Hunger Fund endowment are (1) to provide a pool of capital that is managed for long term investment and (2) to be a source of funds of interest revenue that is to be used to purchase produce. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds, including funds designated by the board of directors to function as endowments, are classified and reported based on the existence or absence of donor imposed restrictions.

INTERPRETATION OF RELEVANT LAW

The Food Depository is subject to the State Prudent Management of Institutional Funds Act (SPMIFA) and, thus, classifies amounts in its donor restricted endowment funds as net assets with donor restrictions because these net assets are time restricted until the board of directors appropriates such amounts for expenditure. Most of those net assets are also subject to purpose restrictions that must be met before reclassifying those net assets to net assets without donor restrictions. The board of directors of the Food Depository has interpreted SPMIFA as not requiring the maintenance of purchasing power of the original gift amount contributed to an endowment fund unless a donor stipulates the contrary.

As a result of this interpretation, when reviewing its donor restricted endowment funds, the Food Depository considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The Food Depository has interpreted SPMIFA to permit spending from underwater funds in accordance with the prudent measures required under the law. In accordance with SPMIFA, the Food Depository considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purpose of the Food Depository and the donor restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Food Depository
- The investment policies of the Food Depository
- Such other factors as the Board may determine are relevant

NOTES TO FINANCIAL STATEMENTS – June 30, 2022 and 2021

ENDOWMENT NET ASSET COMPOSITION BY TYPE OF FUND AS OF JUNE 30, 2022

	Without Donor Restrictions	With Donor Restrictions	Total
Founders' Fund Endowment	\$ 67,849,599	\$ —	\$ 67,849,599
Freedom from Hunger Fund endowment – Board designated	475,072	—	475,072
Freedom from Hunger Fund endowment – Donor restricted	—	38,374	38,374

ENDOWMENT NET ASSETS - END OF YEAR	\$ 68,874,121	\$ 38,374	\$ 68,912,495

RETURN OBJECTIVES AND RISK PARAMETERS

The Food Depository has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor restricted funds that the Food Depository must hold in perpetuity or for a donor specified period, as well as board designated funds. Under this policy, as approved by the board of directors, the endowment assets are invested in a manner that is intended to achieve a long term rate of return on investment (net of fees and expenses) that allows the growth of the Fund's assets to be sufficient to offset or exceed inflation plus required spending. The Food Depository recognizes that its investment goal will not be met in every year and that this objective is intended to be achieved over time.

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVES

To satisfy its long term rate of return objectives, the Food Depository relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Food Depository targets a diversified asset allocation that places a greater emphasis on equity based investments to achieve its long term return objectives within prudent risk constraints.

SPENDING POLICY AND HOW THE INVESTMENT OBJECTIVES RELATE TO SPENDING POLICY

The Food Depository has a policy of appropriating a portion identified for the annual operating budget, specifically an amount equal to five percent (5%) of the average fair market value of the Fund at the end of the then prior three calendar years will be distributed out of the Fund into the Food Depository's operating funds. The Board may determine to adjust the 5% spend rate based on need and in accordance with prudence measures. In establishing this policy, the Food Depository considered the long term expected return on its endowment. Accordingly, over the long term, the Food Depository expects the current spending policy to allow its endowment to grow at a rate

sufficient to offset or exceed inflation, plus required spending, and investment management fees. This is consistent with the Food Depository's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return. The Food Depository has a policy that permits spending from underwater endowment funds, depending on the degree to which the fund is underwater, unless otherwise precluded by donor intent or relevant laws and regulations.

NOTE 12 – EMPLOYEE BENEFIT PLAN

The Food Depository sponsors a defined contribution retirement plan for all employees. Employees are subject to a graded vesting schedule and are 100 percent vested when they reach six years of service. The plan was amended as of March 1, 2014. Effective with the plan year beginning on July 1, 2014, there are two special service requirements in order to receive an employer contribution: (1) complete a year of service and (2) be employed by the Food Depository on the last day of the plan year (June 30, 2022). The Food Depository approved to make a contribution of \$782,843 and \$723,802 for the fiscal years ended June 30, 2022 and 2021, respectively.

NOTE 13 – RELATED PARTY TRANSACTIONS

The Food Depository has a conflict of interest policy whereby board members must advise the board of directors of any direct or indirect material interest in any transaction or relationship with the Food Depository and not participate in discussions and decisions regarding any action affecting their individual, professional, or business interests.

NOTE 14 – ENVIRONMENTAL REMEDIATION LIABILITY

The Food Depository recognizes liabilities for environmental remediation costs when such obligations are probable and reasonably estimable. On December 3, 2018, the Food Depository purchased land at 4200 W. Ann Lurie Place. As a result of the purchase, the Food Depository performed an environmental study that indicated that further action is needed to meet standards set by the Illinois Environmental Protection Agency and allow for building construction. As of June 30, 2022 and 2021, the estimate of the environmental remediation liability was \$1,654,941 and is recorded in accrued expenses on the statement of financial position.
